SSC percentage : 87.20 | Yelavi , Maharashtra
6/2018 - 3/ 2019 |

PROJECTS

Education Platform

9/2024 - present

Tools: React.js , Tailwind , Node.js , Express.js , MongoDB

I developed an ed-tech platform aimed at simplifying online learning and teaching experiences. The front end is built using ReactJS, CSS, Tailwind, and Redux for efficient state management and a responsive UI. On the back end, I used Node.js and Express.js, with MongoDB as the database to ensure scalability and flexibility.

Key features include:

- User Authentication: Secure login, OTP verification, and password recovery using JWT and Bcrypt.
- Course Management: Instructors can create, update, and manage courses, with media stored in the cloud .
- Payment Integration: Seamless course checkout and payment handling powered by Razorpay.
- Cloud-based Media Storage: Efficient media management for images and videos using Cloudinary.

The Donor Hub

Tools: HTML, CSS , Node.js, Express.js, MongoDB, API Integration

3/ 2024- 7/2024

- Designed and developed a platform for connecting blood donors, blood banks, and blood camps.
- The platform allows donors to register, manage profiles, and be easily searched by blood group and location.
- Blood banks and camps can register with detailed information and mapped locations.
- Integrated SMS notifications to alert donors and blood banks about important updates and donation requests.

SKILLS

- **Languages & Frameworks** : JavaScript, Java, HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS
- **Databases** : MongoDB, SQL

Experience

Codsoft

11/ 2023 – 12/ 2023

Web Developer Intern

- Created a personal portfolio website using HTML, CSS, and JavaScript, enhancing my frontend development skills.
- Designed and built a landing page for a social media platform , implementing responsive design principles to ensure compatibility across devices.
- Created a fully functional calculator application utilizing JavaScript, improving my proficiency in dynamic and interactive web elements.

Certificates

- Apna Collage : Java
- Apna Collage : Full Stack web Development
